BATH FITTINGS

Guru bath fittings have all the touches you expect of a luxury bathroom. Right from the start, it has been the objective of Guru to improve on the standards of design, materials, components and services offered by other manufacturers. Designed and manufactured to exacting standards, Guru fittings are not only decorative items in themselves but dependably functional. They blend with decor, from antique to modern and exotic to traditional. These are the fittings that have been thoroughly engineered and tested, superbly crafted and discriminately styled.

The hard facts about Guru fittings : Thoroughly standardized parts are interchangeable and easily available. Threads are made deep to extend the life of fittings. All exposed parts are bright electroplated and diamond hard.

All Guru Fittings are guaranteed for a period of 5 years against manufacturing defects, if any. Once again Guru offers superbly designed and manufactured products to maintain their elegance even after lengthy use. From spindles to washers, screws and Springs, every component is manufactured to extend the durability and easy operation of fittings.

To Clean : Apply a mild liquid detergent or non- abrasive cleaner with a soft, damp cloth. Rub gently , rinse and wipe dry.

A - 043  
Spindle - Small

A - 044  
Spindle - Concealed
